SPECIAL BRIEFING TO BE HELD REGARDING SAME-SEX MARRIAGE

BOTHELL, WA, JANUARY 6, 2006: A new Proprietary Poll by a major polling company confirms that Washington State is trending away from support of same-sex marriage and that voters feel strongly about wanting to participate in the same-sex marriage decision.

The Poll also shows that the same-sex marriage issue transcends party affiliation.

A special briefing will be held in the John L O'Brien Building on the Capitol grounds in Olympia at 10:30 am on Wednesday, January 11.

Dr. Joe Fuiten, Chairman of Faith & Freedom Network and Gary Randall, President of Faith & Freedom Network will lead the briefing. A copy of the Poll, an analysis, and a formal Press Release will be available on that day. Fuiten and Randall will announce the launch of a statewide campaign to bring awareness of these trends to elected officials, including judicial, and to mobilize statewide grassroots response.
